Soltec Hanoi is a leading company in the field of designing, manufacturing and installing steel structures, tanks, industrial furnaces, and piping systems, ensuring the highest quality standards and professionalism.

ABOUT US

Soltec Hanoi Co., Ltd., a member of Soltec Industries Group - Japan, is a leading company in the field of designing, manufacturing and installing steel structures, tanks, steel furnaces, and piping systems. Located in Dong Van II Industrial Park, Ninh Binh, near Hanoi capital and Hai Phong port, our factory with a total area of 20,000 m^2 has over 10 years of experience in the Vietnamese market. With a production capacity of 2,500 tons/year, Soltec Hanoi products are trusted and widely used in the Japanese market and high demanding markets around the world. Soltec Hanoi is committed to bringing superior value through high-quality mechanical products, meeting the diverse needs of customers worldwide.

ABOUT US

We are proud of our outstanding achievements, including the completion of more than 1500 projects, owning three modern factories with a total production capacity of at least 7,500 tons of steel per year. In particular, the revenue in 2025 has reached the milestone of 22 million USD, demonstrating the strong and sustainable growth of Soltec Hanoi and Soltec Vietnam.

WHY CHOOSE SOLTEC?

01 Japanese standards

Japanese standard quality management process, serving the most demanding customers in the world

02 Complex project experience

Experience in complex projects such as furnaces, complex machine structures, complex piping systems

03 Large supply capacity

We can supply and serve to projects from hundreds to thousands of tons with strict schedules.

04 Support from Soltec Industry Japan

We have support from Japanese expert team of Soltec Industries Japan

05 Competitive costs

We have 20-30% lower prices, but still maintain Japanese quality standards.

06 Strict quality control

Soltec Hanoi implements strict quality control, ensuring the highest quality

07 Comprehensive solution

Soltec provides comprehensive solutions from design consulting - production - installation to maintenance.

08 ISO 9001, ISO 3834-2 standards

Soltec Hanoi strictly adheres to international standards ISO 9001 and ISO 3834, ensuring superior quality.

COMPREHENSIVE SERVICE

Soltec Hanoi provides a complete solution from design consultation, production, installation to maintenance, ensuring a seamless and professional process. This not only helps customers save time and costs but also ensures consistent quality, optimizes project efficiency and enhances service experience.

SOLTEC HANOI PROCESS

01 Receive request
Collect and evaluate customer needs

02 Planning
Develop plans and propose optimal solutions

03 Detailed design
Draw the design and check the feasibility.

04 Manufacture
Processing - production and quality control

05 Field installation
Construction and inspection at site

06 Acceptance and handover
Final inspection, handover and maintenance support

FEATURED PROJECTS

MACHINE STRUCTURE

Soltec Hanoi's machine construction works, combining advanced technology and high precision, ensure superior quality. Real images reflect the professional production process, providing customers with sustainable solutions and optimal efficiency.

SAFETY FIRST

FEATURED PROJECTS

BOILER, PRESSURE VESSEL PROJECTS

This is a high quality piping system from Soltec Hanoi, designed and installed to standards. Actual images demonstrate the durability and professionalism of the product, supporting customers to optimize the process and ensure long-term safety.

FEATURED PROJECTS

PIPING SYSTEM

This is a high quality piping system from Soltec Hanoi, designed and installed to standards. Actual images demonstrate the durability and professionalism of the product, supporting customers to optimize the process and ensure long-term safety.

FEATURED PROJECTS

INDUSTRIAL FURNACE AND TANKS

These are furnace and vessel structures made by Soltec Hanoi, meeting safety standards and optimal performance. The outstanding project images demonstrate leading production capacity, helping customers save costs and improve operational efficiency.

CERTIFICATE

- ISO 9001
- ISO 3834-2
- ASME BOILER & PRESSURE VESSEL
